DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Specifically claims are indefinite for the following reasons:

In claim 3, language “generally near the center” is not clearly defining the structural element

In claim 4, terms “for some cancellation” and “used in combination” are indefinite

In claim 5, terms “amplifier used in operation” and “more precisely indicates” are indefinite

In claim 6, terms “signals may be made to add” and “may be made largely” are indefinite

In claim 8, term “would normally apply” is indefinite

Claim 1 provides for the use of laminate layer, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps

delimiting how this use is actually practiced. Also, it is not clear whether applicants intend to claim an article or a method.

Claim1 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).
USP No. 7166952 and 6677034 have been cited as of interest.
